about me

My name is Faye Tikic (Tik-ich), I am a free-lance Illustrator and Graphic Designer based in Manchester UK. I graduated in 2019 with a first-class BA hons degree in Creative Media & Visual Communication. I have worked on a variety of community, commercial & private commissions'; producing logo's, portrait's, tattoo's, book's, map design, and much more.

I have exhibited my work throughout Manchester, within galleries such as: Rogue Studios Leaf, Z-arts, Nexus and the Centre for Chinese Contemporary Arts. My inspiration is drawn from travel, culture, people and food; I enjoy highlighting the beauty within everyday life. My design work embodies a minimal polished aesthetic, however this is juxtaposed when looking at my fine art-works, as I have cultivated a signature scribble style for illustration.

Though I have my preferred styles and processes, I enjoy working to a brief, my ethos as a Graphic Designer puts my personal preference's aside, and always positions the client and brief first, considering target audience, product, USP and company identity.

Engaging Communities

During my time with Together One, I was responsible for establishing company identity through creative design; this involved working with the lead project co-ordinator in developing a range of logos for the companies projects, including designing all workshop emblems for teachers work wear as well as the official company logo. My work is also featured on the companies youtube channels and tutorial videos.

MAP BROCHURE

Wellbeing walks and cycle routes

I have been commissioned to work on this project by M-Thrive & Waste Warriors; this project involves producing a map brochure. Designing a brochure is a fun challenge, there is a lot to consider including: production, design, aim, market, folding method, etc. The main challenge is ensuring all roads and landmark symbols are accurate and placed correctly.

(Manchester Thrive are a charity promoting good physical and mental health for all people across our community in Manchester)

About the brochure

This brochure will provide a map of 6 walk/ cycle routes around the area of Northenden & wythenshawe in the spirit of prioritising health and well-being.

The product will also highlight local shops, parks, schools, & ammentieis to boost engagement with the area's services and local businesses.

GEORGIE'S ADVENTURE

Georgie's adventure is a children's novel I illustrated over 2020. This project was commissioned by a private client as a gift for their family and future generations.

This brief gave me experience in collaborating with a customer and their family in bringing their vision to life. I met with the client multiple times to develop the characters and illustrations, a lot of these were based off family members and their pets. The client was very happy with the final book and has been talking of publishing and producing a Georgie book series in future.

Project Illustrator

My job as illustrator was responsible for producing illustrations of 50 schools, academies and colleges for an official "past & present" map of Wythenshawe. During this project, I also worked as an affiliated artist, directing creative mapping workshops around local schools and producing promotional material for the project and events.

About the Project

Wythenshawe School Mapping Project set out to raise funds for the Snowdrop Unit at Wythenshawe Hospital Charity. This project aimed to educate local schools and connect residents to their local area. The great work involved would be show-cased at the main event on May 21st. Due to Covid 19 concerns, the event was rescheduled, but the project so far has raised £1,320.66. The Snowdrop unit cares for families suffering after loss of a baby, these funds aim to build a second bereavement room to enhance the privacy and mental wellbeing of grieving parents and families.

In partnership with Waste Warriors & Mary Monaghan, Labour Party Councillor for Northenden Ward

WYTHENSHAWE'S HISTORIC LANDMARKS

In the spirit of Wythenshawe's school mapping project, I felt inspired to produce an educational product that shines a light on Wythenshawe's vast history. This product took the form of a colouring book, illustrating a range of scheduled monuments and buildings to educate local schools and children during lockdown.

This was produced in the form of a PDF for ease of download at the time and has been bought for school use by Piper Hill High and more to better engage disabled children. The wonderful reaction has motivated me to expand this into a series, producing colouring books of local areas such as Sale, Altrincham, Timperley, Hale and more.

Bought by Waste Warriors, Piper Hill Specialist School & NHS early lead practitioners.

NORTHENDENS HISTORIC GUIDEBOOK

Northenden's historic guide-book was commissioned by Now-Forever Heritage after I won their "village by the river" competition in 2019. My responsibilities on this project were illustrating past and present buildings along-side designing the guided walk's map. This involved lots of archival research, trackingdown images and memories of demolished buildings so I could illustrate them for the book.

The illustrations and map were produced through a combintaion of sharpie's and digital, producing marker drawings and base map then re-working on digital programmes such as photoshop to clean up and finalise ready for publishing.

Product - Guide-Book illustration

Role - Illustrator & Graphic Designer

THE METAHUMAN'S

This job involves illustrating all visual aspects of comic book, The Metahuman's. This includes developing setting, character, weapon concepts and cover design. The finalisation of these elements will lead to a collaborative production of official issues over coming years.

The Metahuman's is an up-coming comic book commissioned in 2019. The narrative follows a dystopian future in which a determined scientist experiments on 12 human subjects.
